

RESILIENT FLOORING

PLAYBOUND TILES:

- Shock resistant, dual density flooring system made by Surface America
- Available up to 4" thick
- Meets ASTM F1292 requirements for critical fall heights
- Extensive range of tile designs and transitional pieces
- Variety of standard colors available

LANDING ZONE:

- Dual density flooring system
- 2" composite foam base layer absorbs shock
- 1/4" durable rubber mat top layer creates virtually seamless surface
- Installation instructions included

FOLD-UP MATS:

- Space efficient 4'x6'x4" durable mats
- Mats fold up and attach to climbing wall when the wall is not in use
- Velcro wall attachment secures pads and allows future rearrangement
- Meets ASTM F1292 requirements for critical fall heights
- Security cable available to lock mats in place when not in use
- Prominent NO CLIMBING sign visible while mats are up

INTERCHANGE PADS:

- 41"x54"x5" dual density pads developed by Entre Prises USA
- Great for climbing gym and home wall use
- Velcro on all four sides for custom configurations
- Pads joined by velcro for increased safety in the fall zone

ENTRE PRISES
Climbing Walls

www.epusa.com 800.580.5463

Entre Prises offers 8 different types of wall constructions. We do all product design, engineering and any possible manufacturing in our plant in Bend, Oregon where our team includes designers, engineers and an in-house architect. EPUSA is 100% American owned and operated. For more information, please call us or visit our website.
